

ROOM FOR YOUR BULKWARE

 **EXTENDED OPERATION WITHOUT
FREQUENT REFILLS.**

The TipCube drum, with a capacity of over 1,000 pipette tips, enables extended operation without frequent refills. Constructed from high-quality brushed aluminum, it offers durability and a sleek appearance. The transparent plastic cover allows easy monitoring of remaining tips, while the internal plastic ridges ensure smooth transport to the built-in chute, which reliably conveys tips to the conveyor unit. These features make the TipCube drum essential for seamless and continuous operation.

Frame

Made from brushed aluminium ensuring durability and stability

Chute

Conveys the tips accurately and reliably to the conveyor unit

Transparent cover

Easy monitoring of the remaining pipette tips

Ridges

For a smooth and precise transport of pipette tips
